Canopy Post/
Foot

System Features

- ③ The system is manufactured in maintenance free powder coated aluminium in white as standard with any RAL no. colour available at extra cost and lead time.
- ③ The canopy is glazed with 16mm triple wall UV stabilised polycarbonate sheeting offering greater rigidity, available in clear, bronze or opal tints.
- ③ The standard canopy range is available on a 5 working day lead time.
- ③ The eaves beam cleverly doubles as an integral box gutter utilising the support posts as down pipes with the rain water exiting through the variable height post feet.
- ③ The system can accommodate pitches from 5 degrees to 20 degrees, on a gable roof design with the wall plates bolted back to back to form a ridge supported between two host walls or as a free standing option supported on posts.

Gable Roof Design
